Toms River Launches New Recycle Coach Mobile App

(Toms River, NJ) Never miss another recycling day again! Toms River Township is pleased to announce the launch of Recycle Coach, a free app designed to help make recycling and solid waste information more accessible to residents and engage the public in learning about 'Reduce, Re-use and Recycle' principles.

Recycle Coach provides up to date information on Toms River Township's recycling schedule in a user-friendly mobile format. The app will advise if there are changes in collection due to holidays or weather. Users can also set up recycling reminders and improve their recycling rates through a "What Goes Where?" search tool.

"I'm very pleased to offer this interactive program at no cost to the residents of Toms River. I believe that it will improve our recycling efforts and the flow of information concerning recycling and other department services to those residents that download the app," said Lou Amoruso, director of Public Works.

The New Jersey Department of Environmental Protection is the first state to purchase the Recycle Coach application and make it available to residents free of charge. Currently, the application is actively in use by Long Beach Township, Highland Park, Fanwood and Ridgefield, Burlington County and will become available statewide throughout 2018.

Recycle Coach offers the following features:

- Easy access to the customized schedule, including holiday change and yard waste
- Check the collection requirements and set out times
- Look-up tool 'What goes where' about recyclables and non-accepted waste
- Set reminders for the special collections and real-time updates
- Use problem report tool that allows to send notifications via email and photos of the issues such as missed collection, illegal dumping, or container replacements

The Recycle Coach application download is available on the Google Play and Apple Store for free. Residents can get it by going to the Toms River Township webpage and clicking on Public Works. <http://tomsrivertownship.com/index.php/public-works>
