  - (b) Special meetings (requested by applicant): \$2,000 per meeting, (3 hours maximum), excluding escrow review fees
- (3) Amended application (formal hearing). After the Planning Board or Zoning Board of Adjustment has granted approval, an applicant may request amended approval. An amended approval shall be required for any request to increase the approved number of lots or units; to increase the floor area of any commercial or multifamily residential structure; increase the number of required or proposed parking spaces; to substantially modify any significant design detail, including but not limited to grading, drainage, street design or layout, landscaping or architectural design, curbs and sidewalks; to eliminate or modify any condition of approval; or create any new variance or design waiver relief.
- (4) Amended application/field change approval (Board review required). Where minor changes in the plans have been made by the applicant or requested by other governmental agencies, whose approval was a condition of the Board's approval, involving no additional building area, parking or significant change in design and where such changes are technical in nature and do not affect the basis upon which the approval was granted, and do not require changes in any condition of approval, the applicant, through the Board Engineer, may request that the Board administratively approve the changes. Said administrative approval shall be considered during the next available Board meeting. Additional copies of the plat incorporating the changes as necessary for distribution must be submitted to the Board Engineer.
- B. Resolution compliance review fee. As a condition of any approval granted by the Board, the applicant shall post an additional escrow fee deposit in an amount equal to 25% of the base escrow fee under Subsection A, unless the Board Clerk determines that funds exist in the applicant's escrow account greater than or equal to 25% of the base escrow fee. Said additional fee shall be posted at the time that the plans, which have been revised in accordance with the resolution of approval, are submitted for compliance review.
- C. Bond estimate preparation fee. Upon determination by the Board professionals that the plans have been revised in conformance with the resolution of approval, the applicant shall submit a quantity estimate and request the Township Engineer to prepare an estimate of the installation costs of the associated improvements of the approved development. The cost of the preparation of this estimate shall be reimbursed from the escrow review fees previously paid by the applicant.

- D. Disposition of escrow review fees. The Chief Financial Officer (hereinafter "CFO") of the Township shall segregate the escrow review fees in individual accounts pursuant to N.J.S.A. 40:55D-53.2. Thereafter, the reviewing professionals shall prepare and submit vouchers to the CFO on a monthly basis in accordance with the schedules and procedures of the Township. Said voucher shall identify the personnel performing the service, the date the service was performed, the hours spent to one-quarter-hour increments, the hourly rate and the expenses incurred. If the services are provided by a municipal employee, said employee shall prepare and submit to the CFO on a monthly basis a statement containing the same information as required on a voucher. The municipal employee shall charge the escrow account an amount equal to 200% of the sum of the product resulting from multiplying the hour base rate of the employee by the number of hours spent by the employee in reviewing the application or the inspection of the developer's improvements. The method of the notification to the applicant of the charges applied against the escrow account and the close-out procedure relating to the escrowed funds shall be in accordance with the provisions of N.J.S.A. 40:55D-53.2c and d, respectively.
- E. Disposition of escrow review fees in excess of \$5,000. Whenever an amount of money in excess of \$5,000 shall be deposited by an applicant with a municipality for professional services employed by the Township to review applications for development, for municipal inspection fees in accordance with N.J.S.A. 40:55D-53h or to satisfy the guarantee requirements of N.J.S.A. 40:55D-53a, the money, until repaid or applied to the purposes for which it is deposited, including the applicant's portion of the interest earned thereon, except as otherwise provided in this section, shall continue to be the property of the applicant and shall be held in trust by the Township. Money deposited shall be held in escrow. The municipality receiving the money shall deposit it in a banking institution or savings and loan association in this state insured by an agency of the federal government, or in any other fund or depository approved for such deposits by the state, in an account bearing interest at the minimum rate currently paid by the institution or depository on time or savings deposits. The Township shall notify the applicant in writing of the name and address of the institution or depository in which the deposit is made and the amount of the deposit. The Township shall not be required to refund an amount of interest paid on a deposit which does not exceed \$100 for the year. If the amount of interest exceeds \$100, that entire amount shall belong to the applicant and shall be refunded to him by the municipality annually or at the time the deposit is repaid or applied to the purposes for which it was deposited, as the case may be; except that the municipality may retain for administrative expenses a sum equivalent to no more than 33 1/3% of that entire amount, which shall be in lieu of all other administrative and custodial expenses.
- F. Escrow deficiency/replenishment. When it has been determined by the Board Clerk that an escrow account has been depleted by 75% of the original fee or that there exists a deficiency in the escrow account, the Township shall so notify the applicant of the same, via first class mail, and the applicant shall pay any deficiency and replenish the escrow account in an amount equal to 50% of the original escrow deposit. Said payment shall be made to the Township within 10 days following the mailing of the notice. Failure of the applicant to pay any deficiency and/or replenish the escrow account within this time period shall result in the suspension of all work associated with the review, processing and/or inspection of the application until the required payment is made. Notice of the suspension of the review shall be sent to the applicant in a subsequent mailing via first class mail. In the event that said deficiency/replenishment payment is not received by the Township within 20 days of said subsequent mailing, then the Board may dismiss the pending application without prejudice without further notice to the applicant. Any resubmission of an application so dismissed will require the

submission of a new complete application, including all associated nonrefundable application fees and escrow deposits.

G. Refund of escrow deposits.

- (1) Upon completion of the application and at the time that the applicant posts all required inspection fees (see Subsection H below), any unused escrow deposits shall be refunded to the applicant. Prior to the execution of a subdivision map or site plan by the appropriate Board officials or the issuance of a zoning permit or building permit, the Board Clerk shall require written confirmation from the Board professionals that there are no outstanding fees in conjunction with the application that are to be charged to the escrow account. In the event that additional fees to be charged to the escrow account are submitted and there is not sufficient funds to pay said fees, the applicant shall be notified to post such additional escrow deposit prior to the execution and release of the subdivision maps or site plan or the issuance of a zoning or building permit.
- (2) In the event an application is denied, all unused escrow deposits shall be refunded to the applicant within 90 days of the date of the adoption of the resolution of denial.

H. Applicant notification to dispute charges and appeal.

- (1) An applicant shall notify in writing the governing body with copies to the Chief Financial Officer, the approving authority and the professional whenever the applicant disputes the charges made by a professional for service rendered to the municipality in reviewing applications for development, review and preparation of documents, inspection of improvements or other charges made pursuant to the provisions of this section. The governing body, or its designee, shall within a reasonable time period attempt to remediate any disputed charges. If the matter is not resolved to the satisfaction of the applicant, the applicant may appeal to the County Construction Board of Appeals established under N.J.S.A. 52:27D-127 any charge to an escrow account or a deposit by any municipal professional or consultant or the cost of the installation of improvements estimated by the Municipal Engineer pursuant to N.J.S.A. 40:55D-53.4. An applicant or his authorized agent shall submit the appeal in writing to the County Construction Board of Appeals. The applicant or his authorized agent shall simultaneously send a copy of the appeal to the municipality, approving authority and any professional whose charge is the subject of the appeal. An applicant shall file an appeal within 45 days from receipt of the informational copy of the professional's voucher required by this section, except that if the professional has not supplied the applicant with an informational copy of the voucher, then the applicant shall file his appeal within 60 days from receipt of the municipal statement of activity against the deposit or escrow account. An applicant may file an appeal for an ongoing series of charges by a professional during a period not exceeding six months to demonstrate that they represent a pattern of excessive or inaccurate charges. An applicant making use of this provision need not appeal each charge individually.
- (2) During the pendency of any appeal, the municipality or approving authority shall continue to process, hear and decide the application for development, and to inspect the development in the normal course, and shall not withhold, delay or deny reviews, inspections, signing of subdivision plats or site plans, the reduction or the release of performance or maintenance guarantees, the issuance of construction permits or certificates of occupancy, or any other approval or permit because an appeal has been filed or is pending under this subsection. The Chief

Financial Officer of the municipality may pay charges out of the appropriate escrow account or deposit for which an appeal has been filed. If a charge is disallowed after payment, the Chief Financial Officer of the municipality shall reimburse the deposit or escrow account in the amount of any such disallowed charge or refund the amount to the applicant. If a charge is disallowed after payment to a professional or consultant who is not an employee of the municipality, the professional or consultant shall reimburse the municipality in the amount of any such disallowed charge.

- I. Inspection fees.
  - (1) Prior to the signing and recording of the final subdivision plat or the signing and release of the final site plan map or as a condition to the issuance of a zoning permit for the proposed development, the developer shall post a performance guarantee in favor of the Township in an amount equal to 120% of the estimated cost of the associated improvements and shall also post a deposit in the escrow fund to cover the Township's cost for inspecting said improvements in an amount equal to the greater of \$500 or 5% of the estimated cost of said improvements.
  - (2) For those developments for which the inspection fees are less than \$10,000, the inspection fees may, at the option of the developer, be paid in two installments. When the balance on deposit drops to 10% of the total inspection fee amount because the deposit paid by the developer has been reduced by the amount paid to the Municipal Engineer for inspection, the developer shall deposit the remaining 50% of the inspection fee. For those developments for which the inspection fees are \$10,000 or greater, fees may, at the option of the developer, be paid in four installments. The initial deposit shall be 25% of the inspection fees. When the balance on deposit drops to 10% of the total inspection fee amount because the deposit paid by the developer has been reduced by the amount paid to the Municipal Engineer for inspection, the developer shall make additional deposits of 25% of the total inspection fee amount. The Municipal Engineer shall not perform any inspection if sufficient funds to pay for those inspections are not on deposit.
  - (3) In the event that the development project has been approved in phases or sections pursuant to N.J.S.A. 40:55D-38, the provisions of this section shall be applied by phases or sections.
- J. Educational fee. Pursuant to N.J.S.A. 40:55D-8(b), the following fees shall be due and payable in connection with the following categories of land use development applications submitted to the Township Planning Board and Board of Adjustment (hereinafter referred collectively as "the Board"). The fee shall supplement the administrative fees currently charged to applicants and shall be nonrefundable and shall be used solely to offset requisite educational fees incurred by the Board. The fee denoted as "educational fee" shall be utilized exclusively to offset the cost of continuing educational costs and fees incurred by members of the Board as necessitated in order to maintain valid Board status. No application may be deemed complete until all applicable nonrefundable educational fees have been paid as follows:
